Change from Port Moresby to Motukea Island

Dear Clients,

With effect from the below voyages, MBf Carpenters Shipping Limited (MCSL) will standardise the location name and port code for cargoes handled at Motukea International Terminal.

Document issued by MCSL from these voyages onward will reflect Motukea Island (UN Code: PGMTK) instead of Port Moresby (UN Code: PGPOM). This change reflects the actual UN location where our as well as our partner's vessels berth and cargo handled.

Service	Vessel / Voyage	ETA Motukea
NSS	Carpenters Sirius 2005S	2nd February 2020
NAT	Shuntien 1918S	21st January 2020
NAX	Coronado Bay 2001S	31st January 2020

MCSL appreciates your support and we look forward to continue to being of service to you. Please feel free to contact our local representatives should you need further clarification.

Yours Sincerely

MBf Carpenters Shipping Trade Office
